

# Year 2

## Great Fire of London Workshop: 08.06.23

I learnt that the King in charge at the time was King Charles II. He wanted to blow houses up to stop the fire from spreading.

Ava

I learnt that they had primitive firefighting methods such as leather buckets.

Thomas

I learnt that the fire spread because houses were made of wood. The fire didn't spread over the bridge because the River Thames bridge was made of stone.

Skyla-Rose

Professor Tuesday taught us about the poor hygiene and how everything was chucked out the window!

Seth

I enjoyed acting out the story of The Great Fire of London.

Skylar.
